Aseem Sane

Folsom, CA | (916) 365-7231 | aseem.adm@gmail.com | aseem191

Summary

Self-motivated student seeking full-time internship experience for the summer of 2019. Strong work ethic and passion for creative problem solving. Keen interest in furthering experience in Computer Science and Electrical Engineering.

Education

UCLA Computer Science and Engineering — Class of 2021

GPA: 3.91

- Data Structures in C++
- Introduction to Discrete Structures
- Logic Design of Digital Systems
- Software Construction Laboratory
- Introduction to Computer Organization

Advanced Education student at Folsom Lake College, Folsom, CA — 2014-2016

- Beginning Visual BASIC (VB.NET)
- Intermediate Linux Operating System

Languages

- Proficient: C++, JavaScript, C
- Experience in: Python, Java, HTML, CSS, Bash

Frameworks/Tools

- Node.js/Express.js
- Git
- Bootstrap
- Linux/Bash shell
- MySQL
- Raspberry Pi/Arduino

Projects

- Foodmeet: Android app to coordinate where and when to eat with multiple groups
  - Created application using Android Studio and Java, and a backend using a Node.js API to query a MySQL database involving multiple users and groups.
- Rocket Project at UCLA: active electronics team member, communications sub-team
  - Worked on communications system between rocket and ground station, gained experience with TCP and UDP communication protocols, Arduinos, and radio
  - Applied Python and Python's data visualization libraries for rocket data analysis
- VEX Robotics: lead programmer of team #7579 Dynobytes
  - Coordinated electronics sub-team, built and optimized control systems, including PID

Other Projects/Activities

- UCLA ACM Hackschool and AI
  - Through Hackschool, learned and applied tools to create a personal website
  - Through AI workshops, employed TensorFlow for prediction and classification
- UCLA Upsilon Pi Epsilon (CS honor society)
  - Participates in tutoring for computer science courses
- ThinkTank: video game made with Unity
  - Using Unity Engine and C#, built game from scratch with multiple levels and difficulty
